Rosboro Treating Service Only Release Form

ROSBORO MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE PERFORMANCE OF TREATED WOOD PRODUCTS (INCLUDING TREATED LAMINATED BEAMS), INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE ROSBORO TREATED WOOD PRODUCTS ARE SOLD AS IS. PURCHASER AND ITS CUSTOMERS ASSUME ALL RESPONSIBILITY FOR PERFORMANCE OF THE SUBJECT PRODUCTS.

Rosboro cannot control the ultimate use of treated wood products. Any treated product quoted or sold by Rosboro is quoted or sold on the assumption that purchaser has made the determination of suitability of the product for purchaser’s or the end user’s intended use. If a treated product is specified by a purchaser, Rosboro will arrange for the product to be treated as specified by the purchaser. Since the conditions of use and application are beyond Rosboro’s control, Rosboro disclaims all liability and assumes no legal responsibility for damages resulting from use of treated products. Purchaser is not authorized to make any warranties on behalf of Rosboro with respect to any treated products.

Preservative treatments create an envelope of protection around each piece of treated wood. Severe checking or splitting that extends beyond the treated envelop can allow moisture or insects to gain access to the untreated wood in the center of the piece. Where possible, fabrication or machining should be performed prior to treatment. All field cuts, holes or beam damage that occurs after treatment must be field treated to protect the exposed wood material. Application of a copper naphthenate solution having a minimum 2% metallic solution is specified in accordance with AWPA Standard M4.

Rosboro does not recommend waterborne treatments for glulam beams and columns. Glulams are manufactured from kiln-dried lumber and waterborne treatments cause the beams and columns to take on a high moisture content during the treating process resulting in dimensional changes such as swelling, warping, twisting, excessive checking, splitting and raised grain, resulting in an unacceptable finished appearance.

Purchaser agrees to ensure that the following is provided to the ultimate end user of treated wood products Purchaser buys from Rosboro.
IMPORTANT INFORMATION ABOUT USE OF TREATED WOOD PRODUCTS. PLEASE READ BEFORE USING.

• Treated wood should not be used where it will be in frequent or prolonged contact with bare skin. (Example: Chairs or other outdoor furniture).
• Oil bourn or mineral spirt based treated wood should not come in contact with bituminous materials such as deck protective wrap, asphalt or tar / felt paper.
• Treated wood should not be used for farrowing or brooding facilities or in the presence of bees or hives.
• Do not use treated wood where the preservative may become a component of food or animal feed. Do not use treated wood for interiors of farm buildings where domestic animals will crib (bite) or lick the wood.
• Do not use for cutting boards or counter-tops.
• Treated wood should not be used where it may come in direct or indirect contact with public drinking water and drinking water for domestic animals or livestock, except for uses involving incidental contact such as docks and bridges.
• Do not burn treated wood in fireplaces or where people will be exposed to the smoke or ashes.
• Treated wood should not be used in any application where it will be submerged in water or in marine or tropical or other applications where the in service equilibrium moisture content will exceed 16%.
• You the end user are responsible for determining of the suitability of the product for the intended use. SELLER AND ITS SUPPLIERS MAKE NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE PERFORMANCE OF TREATED WOOD PRODUCTS, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE TREATED WOOD PRODUCTS ARE SOLD AS IS AND THE END USER ASSUMES ALL RESPONSIBILITY FOR PERFORMANCE OF THE SUBJECT PRODUCTS.

Purchaser acknowledges and agrees to the foregoing.
